- Daraga, Albay, Philippines

## Skills

### Languages & Frameworks:

- Node.js
- PHP (Laravel)
- Ruby on Rails
- Python
- React.js
- Vue.js
- JavaScript (ES6+)
- HTML5, CSS3, jQuery

### Databases:

- MySQL, PostgreSQL

### Cloud & Tools:

- AWS (RDS, S3, Lambda),  
Docker, RESTful APIs,  
WordPress, Adobe XD

### Other:

- Agile/Scrum, CI/CD,
- System Deployment
- Teaching & Mentorship

## About Me

Full-stack Software Engineer with 8+ years of experience designing, developing, and deploying scalable web applications. Skilled in both frontend (React, Vue.js, JavaScript) and backend (Node.js, PHP, Ruby on Rails, Python) development. Strong background in RESTful APIs, databases (MySQL, PostgreSQL), and cloud platforms (AWS, Docker). Adept at optimizing performance, improving system efficiency, and collaborating in cross-functional teams to deliver impactful solutions.

## Education

- Certificate in College Teaching**  
*Bicol University, College of Education* 2017 - 2018
- Bachelor of Science in Information Technology**  
*Bicol University, College of Science* 2012 - 2016

## Experience

- Software Engineer**  
*Cody Web Development Inc.* 2021 - Present  
Developed and maintained backend services, ensuring robust server-side logic and smooth integration with external applications.  
  
Designed and implemented REST APIs to support scalable client-facing solutions.  
  
Collaborated on multiple projects as a full-stack developer, balancing frontend and backend responsibilities.
- IT Teacher**  
*Kredo IT Abroad Inc.* 2020- 2022  
Delivered IT classes aligned with international curriculum standards.  
  
Prepared course materials, conducted lectures, and evaluated student performance.  
  
Mentored students in career development, helping them transition into tech roles.
- Web Developer**  
*Daily Overland Freight Forwarders* 2016- 2021  
Built and maintained internal management systems, reducing processing time and improving user efficiency.  
  
Enhanced database performance, reducing system response time by up to 33%.  
  
Conducted end-user training and provided technical support for system deployment and server maintenance.
