

DINA FAJARDO

Senior Full-Stack Software Engineer

Senior Full-Stack Software Engineer with 10+ years of experience building scalable SaaS and enterprise applications using Node.js, Laravel, React, Vue.js, Ruby on Rails, and AWS. Experienced in designing RESTful APIs, optimizing database performance, and leading end-to-end feature development from architecture through deployment. Passionate about building maintainable software that delivers measurable business impact.

WORK EXPERIENCE

Software Engineer

Cody Web Development Inc.

2021 - PRESENT

- Developed scalable backend services using Node.js and Laravel supporting thousands of daily transactions.
- Designed and maintained secure RESTful APIs powering enterprise procurement and logistics applications.
- Delivered end-to-end features across React, Vue.js, Node.js, and AWS in Agile teams.
- Reviewed pull requests and collaborated with engineers to maintain code quality and coding standards.

IT Teacher (Part-Time)

2020- 2022

Kredo IT Abroad Inc.

- Delivered IT classes aligned with international curriculum standards.
- Prepared course materials, conducted lectures, and evaluated student performance.
- Mentored students in career development, helping them transition into tech roles.

Web Developer

Daily Overland Freight Forwarders

2016- 2021

- Built and maintained internal management systems used across logistics operations, reducing manual processing time by 40%.
- Enhanced database performance, reducing system response time by up to 33%.
- Led the development of 4 key business modules, ensuring scalable architecture and maintainable code.
- Conducted end-user training and provided technical support for system deployment and server maintenance.

PROFESSIONAL PROJECTS

Waybiling & Logistics System

- Developed a logistics and waybiling system with shipment tracking, delivery management, and reporting features.

Job Search Platform

- Built a recruitment platform with custom job posting, applicant management, and employer workflows.

ERP - Procurement & Inventory System

- Developed procurement and inventory modules with supplier management, approval workflows, and real-time inventory tracking.

AI EV Charging App

- Built an AI-powered application that recommends optimal EV charging stations based on location and battery level.

TECHNICAL SKILLS

Programming Languages:

- JavaScript
- Python
- PHP
- Ruby

Frontend

- React
- CSS
- Vue.js
- TypeScript
- HTML

Backend

- Node.js
- Laravel
- Express
- Ruby on Rails
- REST APIs
- TypeORM

Database

- MySQL
- PostgreSQL
- MongoDB
- Redis

Cloud & DevOps

- AWS
- Docker
- Nginx
- CI/CD
- Git
- GitHub Actions

Methodologies

- Agile
- Scrum

EDUCATION

2017 - 2018

Bicol University, College of Education

- Certificate in College Teaching

2012-2016

Bicol University, College of Science

- Bachelor of Science in Information Technology

CERTIFICATIONS

Professional Teacher

- Philippine Professional Regulation Commission

Civil Service Professional Level Passer

- Philippine Civil Service Commission
